Science Education

CONTENTS TO VOLUME 85, 2001

Issue 1, January

SCIENCE TEACHER EDUCATION SECTION PAPER SET

Editorial: Talking about Issues
William W. Cobern 1

Introduction: Shifting Perspectives from Universalism to Cross-Culturalism
Bradford F. Lewis and Glen S. Aikenhead 3

Discovering Indigenous Science: Implications for Science Education
Gloria Snively and John Corsiglia 6

Teaching Sciences: The Multicultural Question Revisited
William B. Stanley and Nancy W. Brickhouse 35

Defining "Science" in a Multicultural World: Implications for Science Education
William W. Cobern and Cathleen C. Loving 50

Each Is Necessary and None is Redundant: The Need for Science in Developing Countries
Henry Augustine Brown-Acquaye 68

Universalism, Multiculturalism, and Science Education
Gurol Irzik 71

Cultural Diversity: Masking Power With Innocence
Elizabeth McKinley 74

Multicultural Science: Who Benefits?
Bernard R. Ortiz de Montellano 77

Rethinking the Discussion about Science Education in a Multicultural World: Some Alternative Questions as a New Point of Departure
Margareta Svennbeck 80

Rejoinder: Infusing Indigenous Science into Western Modern Science for a Sustainable Future
John Corsiglia and Gloria Snively 82

Response to Our Critics
William B. Stanley and Nancy W. Brickhouse 87

Issue 2, March

Science Education in an Urban Elementary School: Case Studies of Teacher Beliefs and Classroom Practices
Ken King, Lee Shumow, and Stephanic Lietz 89

Success in Introductory College Physics: The Role of High School Preparation
Philip M. Sadler and Robert H. Tai 111

Using Assessment as a Guide in Teaching for Understanding: A Case Study of a Middle School Science Class Learning about Sound
David F. Treagust, Roberta Jacobowitz, James L. Gallagher, and Joyce Parker 137

Problems and Possibilities for Learning in an Introductory Chemistry Course from a Conceptual Change Perspective
Martina Nieswandt 158

CULTURE AND COMPARATIVE STUDIES, *William W. Cobern, Section Editor*

Students' Ease in Crossing Cultural Borders into School Science
Glen S. Aikenhead 180

INFORMAL SCIENCE, *Lynn D. Dierking and John H. Falk, Section Editors*

High School Students' Understanding of Radiation and the Environment: Can Museums Play a Role?
Ellen K. Henriksen and Doris Jorde 189

Issue 3, May

Considering the Nature of Scientific Problems When Designing Science Curricula
James Stewart and John L. Rudolph 207

Transformative Communication as a Cultural Tool for Guiding Inquiry Science
Joseph L. Polman and Roy D. Pea 223

Constructing Difference: A Comparative Study of Elementary Science Curriculum Differentiation
Michael T. Hayes and Donna Deyhle 239

The Distinction Between Key Ideas in Teaching School Physics and Key Ideas in the Discipline of Physics
Zongyi Deng 263

The Science Achievement of Various Subgroups on Alternative Assessment Formats
Frances Lawrenz, Douglas Huffman, and Wayne Welch 279

ISSUES AND TRENDS, *Stephen Norris, Section Editor*

Scientific Literacy for Citizenship: Tools for Dealing with the Science dimension of Controversial Socioscientific Issues
Stein D. Kolsto 291

Issue 4, July

Point and Set Reasoning in Practical Science Measurement by Entering University Freshmen
Fred Lubben, Bob Campbell, Andy Buffler, and Saalih Allie 311

Understanding Students' Explanations of Biological Phenomena: Conceptual Frameworks or p-Prims?
Sherry A. Southerland, Eleanor Abrams, Catherine L. Cummins, and Julie Anzelmo 328

The Use of Historical Materials in Elementary Science Classrooms
Yasmin B. Kafai and Anne J. Gilliland-Swetland 349

"Peripheral and Subversive": Women Making Connections and Challenging the Boundaries of the Science Community
Kathleen S. Davis 368

The Role of Ideational Networks in Laboratory Inquiry Learning and Knowledge of Evolution Among Seventh Grade Students
O. Roger Anderson, David Randle, and Tom Covotsos 410

VOLUME CONTENTS

SCIENCE TEACHER EDUCATION, *Julie Gess-Newsome, Section Editor*

Pedagogical Context Knowledge: Toward a Fuller Understanding of What Good Science Teachers Know
John Barnett and Derek Hodson 426

INFORMAL SCIENCE, *Lynn D. Dierking and John H. Falk, Section Editors*

Families' Engagement With Young Children's Science and Technology Learning at Home
Robin L. Hall and Lynette Schaverien 454

Issue 5, September

An Analysis of Labwork Tasks Used in Science Teaching at Upper Secondary School and University Levels in Several European Countries
Andrée Tiberghien, Laurent Veillard, Jean-François Le Maréchal, Christian Buty, and Robin Millar 483

First Year Chemical Engineering Students' Conceptions of Energy in Solution Processes: Phenomenographic Categories for Common Knowledge Construction
Jazlin V. Ebenezer and Duncan M. Fraser 509

The Characteristics of Formative Assessment in Science Education
Beverley Bell and Bronwen Cowie 536

ISSUES AND TRENDS, *Stephen Norris, Section Editor*

On the Substance of a Sophisticated Epistemology
Andrew Elby and David Hammer 554

LEARNING, *Richard Gunstone and Richard White, Section Editors*

Progression in High School Students' (Aged 16–18) Conceptualizations about Chemical Reactions in Solution
Hong-Kwen Boo and J. R. Watson 568

CULTURE AND COMPARATIVE STUDIES, *William W. Cobern, Section Editor*

Reform Japanese Style: Voyage into an Unknown and Chaotic Future
Masakata Ogawa 586

THE BOOKS, *Hugh Munby, Peter Chin, and Andréa Mueller, Section Editors*

For the Love of Teaching
Edward C. Robeck 607

Kindred Nature: Victorian and Edwardian Women Embrace the Living World
Cindy Sutherland 609

Problems of Meaning in Science Curriculum
Robert Yager 612

Issue 6, November

Integrating Concept Mapping and the Learning Cycle to Teach Diffusion and Osmosis Concepts to High School Biology Students
Arthur L. Odom and Paul V. Kelly 615

The Response of Teachers to New Subject Areas in a National Science Curriculum: The Case of the Earth Science Component
Chris King 636

Complex Instructional Analogies and Theoretical Concept Acquisition in College Genetics
William P. Baker and Anton E. Lawson 665

COMMENTS AND CRITICISMS

Understanding Nature of Science as Progressive Transitions in Heuristic Principles
Mansoor Niaz 684

Further Thoughts on Defining versus Describing the Nature of Science: A Response to Niaz
Lawrence C. Scharmann and Mike U. Smith 691

CULTURE AND COMPARATIVE STUDIES, *William W. Cobern, Section Editor*

Similarity and Difference: Student Cooperation in Taiwanese and Australian Science Classrooms
John Wallace and Ching-Yang Chou 694

INFORMAL SCIENCE, *Lynn D. Dierking and John H. Falk, Section Editors*

Shared Scientific Thinking in Everyday Parent–Child Activity
Kevin Crowley, Maureen A. Callanan, Jennifer L. Jipson, Jodi Galco, Karen Topping, and Jeff Shrager 712

SCIENCE TEACHER EDUCATION, *Deborah Trumbull, Section Editor*

Using Pedagogical Inquiries as a Basis for Learning to Teach: Prospective Teachers' Reflections Upon Positive Science Learning Experiences
Emily H. Van Zee and Deborah Roberts 733

LEARNING, *Richard Gunstone and Richard White, Section Editors*

Training in Metacognition and Comprehension of Physics Texts
Adina Koch 758

ISSUES AND TRENDS, *Stephen Norris, Section Editor*

Science and Ethics: Some Issues for Education
Jennifer Andrew and Ian Robottom 769

THE BOOKS, *Hugh Munby, Peter Chin, and Andréa Mueller, Section Editors*

A Devotion to Their Science: Pioneer Women of Radioactivity
Melissa Franklin 781

Feminist Science Education
Patricia A. Lowery 784

Books Received 787

Acknowledgment of Special Reviewers 790
